Profile Summary

Full Stack Developer with hands-on experience in **JavaScript**, **React.js**, **Node.js**, and **MongoDB**, passionate about building scalable and responsive web applications. Recently completed a 6-month internship as a **MERN Stack Developer**, where I strengthened my expertise in full-stack development, API integration, and real-world problem-solving. Known for being **adaptable**, **collaborative**, and focused on writing clean, efficient, and maintainable code. Eager to contribute to impactful projects and grow in a dynamic development environment..

Core Technical Skills (Used in Projects, Course-works)

- HTML, CSS, JavaScript
- Bootstrap, JSON, jQuery
- Responsive Design
- JavaScript Frameworks (JS)
- Front End- ReactJS
- Back-end - Node JS, Express JS,
- Communication with Databases- MongoDB

Experience:

MERN & React Native Developer   Nov 2024 – Present
DIGILATERAL Solutions, Mumbai

- Built and maintained cross-platform mobile applications using **React Native** for both **iOS** and **Android**.
- Implemented **push notification** functionality using Firebase Cloud Messaging (FCM) and local notifications.
- Published apps on the **Google Play Store** and **Apple App Store**, ensuring compliance with platform guidelines.
- Developed and integrated **REST APIs**, managed app state with Redux, and handled offline data syncing.
- Built full-stack web applications using **MongoDB, Express.js, React.js, and Node.js** (**MERN**).
- Collaborated using Git for version control and Agile methodologies for project management

Web Developer Intern
DIGILATERAL Solutions, Mumbai   May 2024 – Oct 2024

- Collaborated with UI/UX designers to implement clean, responsive interfaces and ensure user-friendly experiences.
- Assisted in developing project concepts and maintaining consistent workflow throughout the development lifecycle.
- Participated in front-end and back-end development using React, Node.js, and MongoDB.
- Contributed to code reviews and debugging sessions to improve code quality.

Projects I have worked:

Project 1: Rxpl App

Description: Developed a **sales motivation mobile application** that gamifies prescription tracking for medical representatives. The app allows users to add prescriptions and earn scores based on brand performance, simulating a live **cricket match experience**. Users can view their team's progress in real-time and receive dynamic **notifications** (e.g., for 4s and 6s) to stay motivated and engaged.

- Implemented **real-time communication** using **Socket.IO** on both frontend and backend.
- Designed and developed a responsive **admin panel** to manage users, view live match updates, and generate detailed reports and match summaries.
- Integrated **push notifications** and leaderboard functionalities.
- Backend built with **Node.js and Express.js**, storing data securely with **MongoDB**.

Tech Stack: React Native, Node.js, Express.js, Socket.IO, MongoDB,

Project 2: User Management System

Description: Built a User Management System using Node.js, Express, and MongoDB, enabling CRUD operations for user data. Implemented Bootstrap for styling and user interface consistency.
Tools: Node.js, Express, MongoDB, Bootstrap, CRUD Operations

Project 3: E-commerce Website

Description: Developed a comprehensive E-commerce Website using the MERN Stack (MongoDB, Express, React, Node.js). Employed React, Redux, and React Hooks for frontend development, with Node.js and Expressfor backend functionality. Ensured responsiveness across various devices and browsers.
Tools: React, Redux, React Hooks, Node.js, Express, MongoDB, LocalStorage, Responsive Design

Project 4: Postify

Description: Developed the Postify App using React-Native, providing users with functionalities to add, edit, and delete posts, update their username and password, and view their posts securely. Incorporated JSON Web Token (JWT) for authentication, ensuring data integrity and user privacy. Implemented additional features likeasync storage for data storage, refresh control for reloading, and lazy loading for optimized performance.
Tools: React Native, Redux, React Hooks, Node.js, Express, MongoDB, LocalStorage, Responsive Design

Education

Bachelor of Science – 2023
Guru Nanak Khalsa College Matunga

Certifications

Certification in Full Stack Development:
Coursework:
Front End- HTML, CSS, JavaScript, React
Backend- NodeJS, ExpressJS, MongoDB, SQL, Python
